

# Emailed Updates

News Release Date

03-04-2024

The base product that runs the Village of Sleepy Hollow website has been upgraded by our provider, Municode. Unfortunately, our email list was not transferred with the upgrade. In order to receive emailed updates, you will need to re-subscribe by going to:

<https://www.sleepyhollowil.org/portal>

You will need to create an "account" so that if we add different types of email notifications, you will be able to choose which lists you desire to be on. We apologize for this inconvenience; however, it is out of our control. Thank you for understanding.
